

Principal Message to Parents:

Welcome to the 2020 – 2021 school year! This is going to be a very interesting year for sure! The safety of our staff and students has always been our number one priority, and without a doubt, it will continue to be our main focus throughout this school year. This is going to be a very different school year with continuous challenges that I know we can work together to overcome. It will take all of us as a community to do our best for our students. I ask for your patience and understanding as we work through this year, but please know that we are here to listen and work to solve our challenges together the best we can. We are committed to the education of all of our students, and although it will look different this school year, we have planned and are prepared to deliver our Washington Elementary School District curriculum with our John Jacobs teachers. Students will learn reading, math, writing, science, social studies, art, music, PE, technology, and social and emotional skills with our teachers throughout the school year, either virtually using Google Classroom or in person when it is safe to do so. We are looking forward to working with you and your family this school year and are here to help in any way that we can safely do so!

Thank you for choosing John Jacobs Elementary School!

A handwritten signature in black ink, appearing to read "Pamela Wright", with a large, stylized flourish at the end.

Pamela Wright, Ed.D.
