JJ Science Update

Room 37 resurrected as the JJ STEM LAB and MAKERSPACE!!

BEFORE: Room 37, the old science lab.

AFTER: Cleaned, purged, organized and minimally decorated with STEAM-related wall décor.

As a storage space

By: Albert E.

Although room 37 is fitted with permanent science stations, over the years it has become a storage space and detention room. This year we are restoring it to its original purpose – science, and so much more. Incorporating all components of STEAM: SCIENCE, TECHNOLOGY, ENGINEERING, ART and MATH. JJ staff and students have been hard at work getting the room ready for learning.

Donations should be safe for children to handle: clean, dry, rust-free, splinter-free, etc.

New and Improved!

By: Albert E.

John Jacobs' teachers are looking forward to immersing their students in authentic STEAM activities that will help develop strong 21st century skills. To make our new lab functional, we are in need of materials and supplies for the Makerspace part of the lab. This is a creative space where any item can be repurposed. Since this is a perfect time of year to purge, please consider donating used toys (broken is ok), games, craft supplies, and odds/ends. Drop off donations at the office or bring them to our Open House on December 6th, before and after the Talent Show.

- Screwdrivers of all sizes
- Wrenches
- Pliers
- Bolts, screws
- Old toys, broken/missing items ok
- Legos, blocks, other building-type toys
- Tape – all kinds, lots needed
- Magnets
- Mini hot glue guns and glue sticks
- Zip ties
- Binder clips
- Sandpaper
- Wood scraps
- Clothespins
- String, twine
- Craft supplies
- Sewing supplies, sewing needles
- Fabric
- Ribbon
