Minutes

Old Business

New Business

1. Amanda Hess: Requesting 300\$ for Autism Pumpkin Patch during Trunk or Treat.
 - Annie: 150\$ for pumpkins and hay bales
 - Pam: Tax credit money cannot be used for donations like this. Reaching out to make connections for pumpkins and straw bales at block watch. Not hay, straw. Straw is not edible and does not cause allergies.

2. Pam: Information is embargoed until press release tentatively October 9th, 2017.

Our letter Grade is B.

Areas of improvement:

- Lowest in acceleration and readiness
- Chronic absenteeism- we have a responsibility to get these kids to school. This is a k-8 problem. Ten days or more is the is the threshold. Teachers are asked to notify Pam
- No points for Special Ed and Inclusion
- No points for 3rd grade minimally passing rate

These points would not have given us an A, these are just areas to improve.

Annie: Areas are weighted. Growth and proficiency is the most important. Other categories are for bonus opportunities. We can double dip on points, help with proficiency and acceleration to readiness. We have great opportunities.

Sara asked how points are working.

Pamela:

Acceleration in readiness is a combination of MP's and worth 5 of the points. We have 0.

Max extra points as much as possible.

Cannot look at whole school for AZMerit

Given bonus points, lost to inclusion.

Anita asked why more inclusion wasn't happening.

Pam explained rescheduling due to medical reasons

More points explained.

3. Awards explained and points explained

4. Conferences are logged with translators

5. Items for next agenda- None at this time

Annie: Adjourned at 3:30
